## EXPERIENCE

---

### Freelance Web Developer

April 2024 – April 2025

- **Ghee Symphony (Feb 2025 – Apr 2025)**

- \* Designed and developed the complete frontend of a responsive website for a Canadian takeout restaurant using React and Tailwind CSS.
- \* Engineered a user-friendly and visually appealing interface to showcase the restaurant's menu.
- \* Ensured a consistent and modern design aesthetic throughout the website by leveraging the utility-first approach of Tailwind CSS.
- \* Collaborated directly with the restaurant owner to understand their requirements and translate them into an effective online presence.

- **Adspyr (Dec 2024 – Jan 2025)**

- \* Developed a responsive website for Adspyr, a digital marketing startup, using React and Tailwind CSS.
- \* Designed and implemented dynamic UI components to deliver a user-friendly experience.
- \* Collaborated with the startup team to ensure the website aligns with branding and business goals.
- \* Optimized website performance and responsiveness across devices.
- \* Integrated reusable components for scalability and maintainability of the codebase.

- **Kabadi (Sep 2024 – Nov 2024)**

- \* Developed a robust e-commerce platform for India's leading scrap pickup service, enhancing user engagement and optimizing performance.

- **Yajur Insurance and Marketing Pvt Ltd (Jun 2024 – Jul 2024)**

- \* Developed a responsive, user-friendly website to establish an online presence for the client.
- \* Utilized React for frontend development and Tailwind CSS for styling, ensuring a modern, visually appealing design with optimal performance.
- \* Managed GoDaddy for domain registration and set up Netlify for hosting, ensuring seamless deployment and reliable website performance.
- \* Focused on creating an intuitive and accessible user interface, ensuring the website was fully functional across all devices.
- \* Delivered the project within the agreed timeline, meeting all client requirements and expectations.

- **Dance Wance (Apr 2024 – Jun 2024)**

- \* Developed a responsive website for a Ranchi-based dance academy, showcasing classes and instructors.
- \* Implemented SEO strategies to improve online visibility and integrated animations using Framer Motion.

### Software Developer Intern

August 2024 – November 2024

*Edumitram Pvt Ltd*

*Vasundhara, Ghaziabad*

- Led the development of a dynamic equity trading platform using React, Tailwind CSS, and Framer Motion.
- Built and maintained .NET Core APIs for user registration, KYC verification, and service purchases.
- Designed and implemented an admin dashboard for managing users and services efficiently.
- Oversaw project execution as Team Leader, ensuring timely delivery and meeting objectives.
- Conducted R&D to enhance system performance and user experience.
- Optimized and maintained legacy projects for continued functionality.
- Managed tasks and delegated responsibilities to ensure smooth team collaboration.
- Conducted technical interviews to evaluate frontend developer candidates.

## PROJECTS

---

### **Portfolio** | *React, TailwindCss, Framer Motion, Git*

Ongoing

- Developed a personal portfolio using React, Tailwind CSS, and Framer Motion to showcase projects, experience, and blog content.
- Added dark mode toggle and smooth section transitions for modern UI/UX feel.
- Built a projects gallery with filters, linking to GitHub repos and live demos.
- Integrated a blog section using Dev.to API to fetch and display published articles.
- Ensured accessibility (ARIA roles, keyboard navigation) and deployed to Netlify with CI/CD pipeline via GitHub.

### **DSA Tracker** | *React Native, Style Sheet, Expo, Git*

Jan 2024 – Jan 2024

- Designed a React Native application using Expo to track progress in solving Data Structures and Algorithms (DSA) problems.
- Integrated AsyncStorage for efficient storage and retrieval of solved questions, providing a seamless experience for users.
- Organized questions by topics, making it easier for users to navigate and track their progress within the application.
- Leveraged React Native and Expo to create an intuitive and user-friendly interface for easy interaction.

### **WriteOn** | *React, Node.js, Express, Tailwind CSS, Git*

May 2022 – July 2022

- Developed a comprehensive full-stack, responsive blogging platform featuring robust user authentication and authorization systems, along with a user-friendly UI/UX design.
- Crafted a highly intuitive frontend using React and Tailwind CSS, ensuring a smooth and visually appealing user experience.
- Built a reliable REST API using Node.js and Express.js, facilitating seamless data flow and security.
- Managed efficient data storage and retrieval using MongoDB.

### **Edit It** | *React, Tailwind CSS, HTML Canvas, Git*

Feb 2022 – March 2022

- Created a web-based image editor allowing users to apply various effects such as hue, grayscale, and crop using a simple and accessible interface.
- Utilized HTML, CSS, and React.js to build the editor with a focus on ease of use.
- Implemented image editing features by applying CSS filters and using HTML canvas to process user-uploaded images.

## TECHNICAL SKILLS

---

**Languages**: JavaScript, Python, Typescript, SQL, HTML/CSS

**Frameworks**: Next.js, React.js, Angular.js, Node.js, Express.js, Tailwind CSS, Dotnet Core

**Developer Tools**: Git & GitHub, VS Code, Visual Studio, Firebase, Postman, Docker

**Libraries**: Framer Motion, Material UI, Redux and Redux Toolkit

**Database**: MySQL, MongoDB

## EDUCATION

---

### **IMS Engineering College**

*Bachelor of Technology, Major in Information Technology*

Ghaziabad, India

*Sep. 2020 – July 2024*

### **R.S.B.V.**

*Science*

Delhi, India

*Apr. 2018 – June 2019*

## CERTIFICATES

---

### **Ducat**

*Data Science*

Ghaziabad, India

*April 2025 – Present*
